# PetDesk App

- Get In-App Visit Reminders
- Request Appointments
- View or Export Records
- Review History
- Earn Rewards

*And much more!*

PetDesk is a great new app for iOS and Android mobile devices that handles all of your veterinary needs. The comprehensive app allows you to make 24/7 appointment requests, see your pet's vaccine history, view office hours, refill prescriptions and more! It seamlessly syncs with your phone's calendar, automatically notifying you of upcoming vet appts, when your recommended vaccinations are due and keeps track of your pet's medication schedule.

**And as a bonus, discounted service rewards are earned when you set up the app!**

PetDesk is free and connects directly with your pet's MVVC patient records.

Ask us for more info, or check out our site at **ManchacaVet.com**, and click on the [GET OUR APP](#) button to connect today!
